Whole Child Development

Citizenship
Address issues of human and environmental sustainability, work towards a fairer world in a spirit of mutual respect and understand your own country's values.

Digital literacy
Use technology to seek, absorb, analyse, manage and present information critically and intelligently.

Creativity and imagination
Generate ideas, solve problems and determine the best course of action.

Leadership and personal development
Self-regulate, be responsible for contributing to the safety and benefit of others and develop an enthusiasm for life-long learning.

Collaboration and communication
Engage effectively in teamwork, benefit from collaborative relationships and interact with people.

Critical thinking and problem solving
Draw out meaning from given data or statements, generate and evaluate arguments, and make your own judgements.
